The Family History and Demography Network of the Social Science History Association calls for papers for a variety of panels that have been proposed by network members, and for proposals for additional panels.

We especially appreciate receiving entire panels, consisting of four papers, with panel chair and commentator, but also invite proposals for roundtables, book sessions, or single papers. The list of panels that have already been proposed appear below. Please contact the panel organizer directly if you wish to submit a paper to it.

You may login to submit a panel or paper directly at ( <http://ssha.org> ). Only submit single papers to [ssha.org](http://ssha.org) when you are not part of a session to avoid double submissions. Graduate students are eligible to apply for travel grants to attend the annual meeting ( <http://www.ssha.org/grants> ). The deadline to apply for a student travel grant is March 3, 2017.
